Oops!

**We may cancel it because we
didn't know you planned to take it!**

Sometimes excellent courses with super instructors are canceled when too many people wait until the last minute to register. Our courses have to be cost-recoverable and we need a minimum of students enrolled before a class will run. To avoid any inconvenience to students and instructors, we cancel under-subscribed courses ahead of time.

Don't wait. Avoid disappointment.

Register early and include your payment.

To obtain a refund when dropping a class, a student must cancel at least 7 days before the class begins.

We will sometimes make an exception to this policy if the student cancels in time to be replaced by another student. All exceptions to this policy are by permission of the Office of Continuing Education Manager only.

In accordance with the Americans with Disabilities Act, this material is available in alternate formats upon request.

Southeast Mushrooms

How to Identify them

This course introduces students to the mushroom flora of SE Alaska. Focus will be on the use of taxonomic keys for identification of fungi and recognition of both edible and poisonous mushrooms. Cooking and preservation of mushrooms will be discussed. Field trips will be followed by in-class identification of collected mushrooms.

Thursday - September 4, 7-8:30pm
& Saturday - September 6, 10am-4pm
Fee: \$50

COURSE OBJECTIVES:

Upon completion of this course, students will be able to:

- Use a macro and microscopic key to identify mushrooms.
- Recognize several species of locally common mushrooms.
- Understand the basic biology of fungi and their role in the ecosystem.

Register at:

<https://aceweb.uas.alaska.edu/>

Dress for outdoors, bring waxed paper and a bucket for gathering

For more information, call UAS Office of Continuing Education at 747-7762 or 1-800-478-6653, ext. 7762 aceweb.uas.alaska.edu/

UAS reserves the right to cancel workshops if minimum registrations are not met. This class is limited to a maximum of 18 participants.
